

Quote/Estimate Worksheet

To get an estimate of solar screens, please follow a few easy steps below. Getting your measurements is very easy, you can do from inside your home and does not need to go outside. This is for the purpose of getting an estimate only; your measurements do not need to be accurate, just close enough will do. You can round up to the nearest 1/4 inches are fine. **Hint: Many of your windows will have the same measurements.** Final measurements will be done when we come out to do a precise measurement. If you prefer us to come out to measure we will charge \$50.00 (Free for Katy, TX), but will credit back to you toward order of solar screens.

STEP 1: Measure the Width of your windows in inches

STEP 2: Measure the Height of your windows in inches

STEP 3: Record your Measurement here

	Width	Height	Shade (80% or 90%)	Arched (Y/N)?
Window #1	_____	_____	_____	_____
Window #2	_____	_____	_____	_____
Window #3	_____	_____	_____	_____
Window #4	_____	_____	_____	_____
Window #5	_____	_____	_____	_____
Window #6	_____	_____	_____	_____
Window #7	_____	_____	_____	_____
Window #8	_____	_____	_____	_____
Window #9	_____	_____	_____	_____
Window #10	_____	_____	_____	_____
Window #11	_____	_____	_____	_____
Window #12	_____	_____	_____	_____
Window #13	_____	_____	_____	_____
Window #14	_____	_____	_____	_____
Window #15	_____	_____	_____	_____

80% vs 90% Fabric Shade:
 Percentage of shading (the fabric's density).
 Please see our FAQ Page on our website for a detailed explanation of the 80% vs 90% Fabric.

STEP 4: Email or Fax to us this Worksheet with your Name/Address.
